Date:	Monday, September 8, 2025

The webcast of the fireside chats will be accessible in the investor section of 89bio's website . A replay of the webcasts will be available for approximately 30 days following each conference.

About 89bio
89bio is a clinical-stage biopharmaceutical company dedicated to the development of best-in-class therapies for patients with liver and cardiometabolic diseases who lack optimal treatment options. The Company is in Phase 3 trials for its lead candidate, pegozafermin, for the treatment of metabolic dysfunction-associated steatohepatitis (MASH) with advanced fibrosis, including patients with compensated cirrhosis, and severe hypertriglyceridemia (SHTG). Pegozafermin is a specifically engineered, potentially best-in-class fibroblast growth factor 21 (FGF21) analog with unique glycoPEGylated technology that optimizes biological activity through an extended half-life. The Company is headquartered in San Francisco. For more information, visit www.89bio.com or follow the Company on LinkedIn.
